COMMUNITY FACILITY ADVISORY COMMITTEE AGENDA & UPDATE

October 18, 2017

October 18, 2017 Committee Meeting Update

The Community Facility Advisory Committee (Committee) toured Windsor Elementary School in DeForest where a major addition and renovation were recently completed. The Committee also saw a presentation on other Wisconsin districts' learning environments to get a better understanding of how these spaces impact teaching and learning.

After the tour and presentation, the Committee was asked to think about what they or others in the community would like to see explored in Poynette, what challenges the District, Board and Committee need to be mindful of, and any other questions they might have about current learning environments.

Several strong themes were discussed:

- Flexible, collaborative spaces
- STEM/STEAM spaces for 21st Century learning
- Community spaces

Other items that were mentioned included:

- Performance spaces
- Balancing the District's needs while controlling costs
- Communicating with taxpayers about how education has evolved and how it impacts the Poynette community
- ... and many others!

Visit the District's website for all materials related to the facility planning process.

The Committee reviewed other learning environments

The group toured collaboration spaces at Windsor
