

School District of Poynette

How We Support Students in our Schools

- Pre-school (3, 4, and 5 year old) developmental screening
- Other screening and assessment for academic, social and emotional needs
- Programming, resources and support for highly able students
- Disseminate information regarding public health services, disease prevention, health promotion, and health plans
- Emergency nursing services and maintenance of immunization and health records
- Classroom developmental guidance lessons covering topics such as decision-making, feelings, cooperation, conflict resolution, personal safety and diversity.
- Alcohol and other drug (AODA) information and awareness
- Individual counseling for social/personal issues
- Small group counseling, such as friendship groups, family change/divorce groups, study skills groups and grief groups
- Special education assessment, which may include individual measurements of functioning, academic performance, social behavior, perceptual motor development, behavior functioning
