COMMITTEE FEEDBACK

Available online!

At each Committee meeting the group provides input and feedback during table and/or group discussions.

To see what the Community-based committee is saying, visit the District's website and go to the Facilities tab.

COMMUNITY FACILITY ADVISORY COMMITTEE AGENDA & UPDATE

November 15, 2017

November 15, 2017 Committee Meeting Update

The Community Facility Advisory Committee (Committee) toured the Elementary School with Principal Jay Hausser and toured the Middle School with Principal Jerry Pritzl. Both Administrators shared staff feedback about some of the challenges and benefits of the spaces.

Lisa Voisin, Managing Director with Robert W. Baird & Co. (Baird) presented the District's current finances, debt history, and provided a general understanding of school finance. Based on questions asked during the presentation, Lisa will also provide more information on the differences in how agricultural land is taxed vs. residential land.

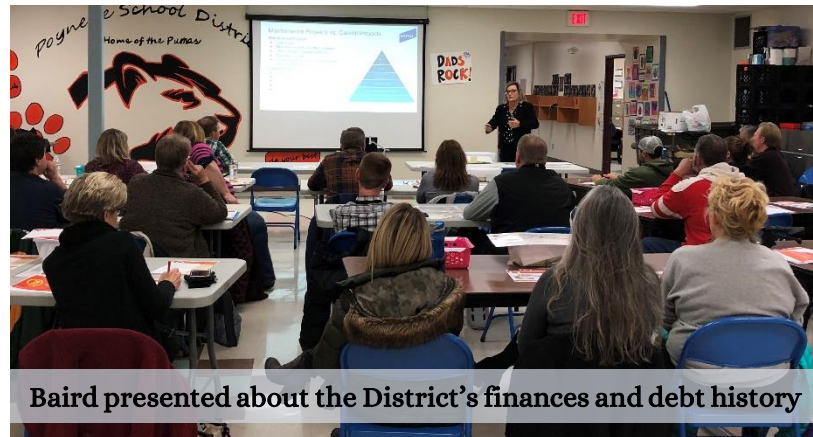

Several strong themes about the Elementary & Middle Schools were discussed:

- Lack of space
 - Classrooms
 - OT/PT (Occupational Therapy and Physical Therapy)
 - STE(A)M (Science, Technology, Engineering, Art/Agriculture, and Math)
 - Collaboration areas
- Lack of natural light
- Safety/security issues and loss of instructional time
 - Elementary and Middle School students traveling to the High School for classes
- Inefficient layout with classrooms and bathrooms

Visit the District's website for all materials related to the facility planning process.

The group toured the Elementary and Middle Schools

Baird presented about the District's finances and debt history
