COMMUNITY FACILITY ADVISORY COMMITTEE AGENDA & UPDATE

December 13, 2017

December 13, 2017 Committee Meeting Update

The Community Facility Advisory Committee (Committee) meeting focused on reviewing facility options created at the November 29 meeting. It looked to narrow and/or develop new options for future consideration.

There were seven options the Committee discussed, and various pros and cons were analyzed. After the review, Committee Members voted on the options and determined if certain options would be explored further. If they could not support an option, it was removed from consideration.

Of the seven options presented, the Committee voted to continue exploring four options, while three of them could not be supported.

Additionally, the Committee was able to suggest potential solutions not yet considered. They came up with three new options that would be brought to the next meeting along with the four that were voted on to be explored further.

Visit the District's website for all materials related to the facility planning process.

The Committee began to narrow and refine potential solutions
